

Driving Public Sector Impact with IBM's CVA Program

Transform Software Management into Measurable Mission Outcomes with IBM's CVA Program

What is the CVA Program?

The IBM Client Value Acceleration (CVA) Program empowers organizations to manage their IBM software with confidence and transparency. CVA offers a modern, risk-free alternative to traditional audits—combining centralized data, AI-driven insights, and expert support. It combines expert guidance, AI-powered insights, and a centralized portal to help you:

CVA PROGRAM BENEFITS:

Single Pane of Glass

Centralized view of deployed, underused, and adoptable software to support smarter decisions and transparency.

AI-Powered Insights

Identify opportunities, boost performance, and align software with business needs using AI analytics.

Complimentary Learning

12 months of free access to 30+ self-paced IBM training courses.

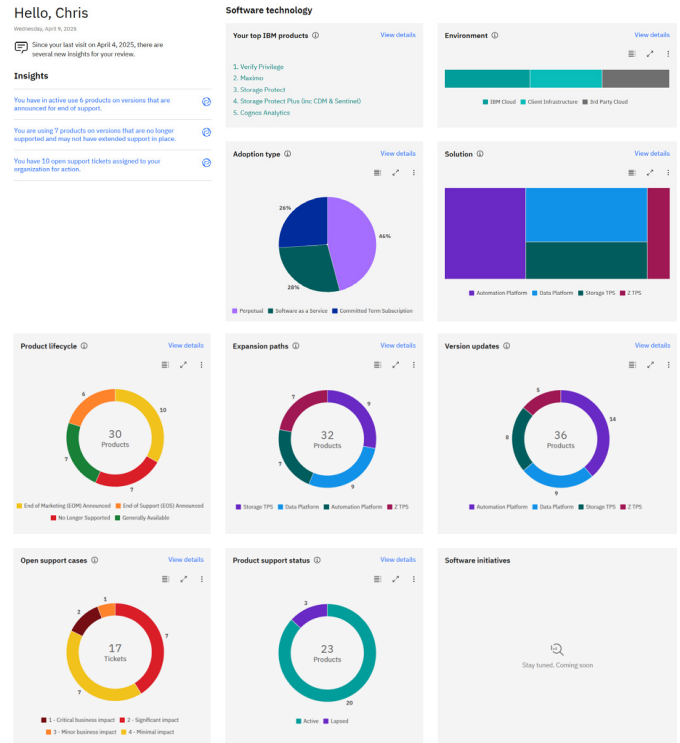

Audit Exemption

Maintain compliance and reduce disruptions with built-in audit protection.

Hands-On Technical Support

Engage IBM experts in pilots, proof of concepts, and workshops to co-create high-impact solutions.

A Trusted Partnership

IBM works with only four global Software Asset Management (SAM) providers.

Anglepoint has some key differentiators:

- Only non-audit firm authorized to deliver IBM's CVA
- Recognized leader in Gartner Magic Quadrant for 5 consecutive years
- Dedicated IBM team made up of former auditors (average 9 years' experience)
- Full-service delivery including data submission, tool implementation (ILMT, Flexera, ServiceNow), and license optimization

Gartner. The Gartner® document is available upon request from Anglepoint. Gartner® Peer Insights reviews constitute the subjective opinions of individual end users based on their own experiences and do not represent the views of Gartner or its affiliates.

Trusted by Top Government Agencies.

Our clients partner with us to unlock millions in savings & cost avoidance.

Benefits of Anglepoint's Managed Services

Effortless Audit Protection

Keep audit exemption status while removing the need for manual reports. Anglepoint securely uploads data from tools like ILMT and ServiceNow.

Reduced Costs and Maximized Value

Anglepoint finds savings and ensures your IBM license position is optimized quarterly to prevent penalties and overspend.

Efficient, Insight-Driven ITAM

Anglepoint's Elevate platform streamlines projects and integrates with IBM CVA, ILMT, and ServiceNow—boosting transparency and ROI.

CVA Implementation

Anglepoint will:

- ✓ Handle all data submission and reporting requirements via the CVA portal.
- ✓ Implement and maintain sub-capacity tools like ILMT, Flexera, and ServiceNow SAM Pro.
- ✓ Prepare license optimization assessments before IBM submission deadlines.
